

Dear Colleagues

Indo-U.S. Science and Technology Forum (IUSSTF) has issued the 2018 Call for Virtual Networked Center Program. In this call the following projects will be supported:

(a) Knowledge R&D Networked Centers: to encourage joint project implementation amongst Indian and American scientists from Academia and Laboratories on focal areas of research.

(b) Public-Private Networked Centers: to enable Indian and American scientists from Academia and Industry to work together to promote pre-commercial R & D activities having potential towards applied research and product development.

The Funding under this program is generally granted for a two-year period and is upto a maximum of INR Fifty Lakh. Qualified researchers from all disciplines of Science, Technology and Engineering working at Indian and American Academic Institutions, Laboratories and Industries are eligible to apply. Minimum of two Indian and two American distinct institutional partners (2+2 Partnership Mode) must participate. The proposals are peer-reviewed in India and the United States.

Please visit the following link for details related to the above call
