Sir,

Sub: Joint R&D projects through collaborative/contractual research.

Security paper mill (SPM), Hoshangabad (M.P.) is the unit of SPMCIL, wholly owned by Govt. of India, which is engaged in manufacture of security paper for Bank Notes and Non-Judicial stamps.

SPMCIL would like to carry out joint R&D projects through collaborative/ contractual research with the government owned/associated institutions in the areas on security product design to develop new security features for the bank note paper, to make them secure against counterfeiting. Like development of new chemical complex which is having its visibility only in any specific light source such as IR, UV, laser light or presence of that chemical in bank note can be detected by giving beeping sound / light signals in a particular instrument.

In case your institute is interested in carrying out R&D projects in collaboration with SPMCIL, you are requested to give your willingness so that officials from SPMCIL may visit your institute for detailed discussions regarding the R&D projects. Please also intimate the name of officers who may be contacted for the R&D activities, to be carried out with your collaboration.

Thanking You

Yours Sincerely

G C Kandpal
Manager-R&D

May please advise as to whom / which faculty should this info be sent, to facilitate understanding of desired project.
