Applications from Indian nationals are invited for Project Appointment under the following project. Appointment shall be on contractual basis with consolidated pay, renewable yearly or up to the duration of the project, whichever is earlier. In this project we aim to develop novel ultrathin and highly permeable membranes based on the assembly of microgels with self-cleaning ability for clean water and separation applications. The candidate is expected to synthesize novel polymers and microgels and perform membrane preparation and analysis.

**Title of the Project**
Self-cleaning Ultrathin Microgel Membranes for Clean Water and Separation Application (RP03581G)

**Funding Agency**
Science and Engineering Research Board (SERB)

**Name of the Project Investigator**
Prof. Bijay Prakash Tripathi

**Deptt./Centre**
Department of Material Science & Engineering (CPSE)

**Duration of the Project**
Upto: 09/08/2021
