Reg: (i) Technical Advice towards maintenance of 'Grit Channel System'  
(ii) Fabrication & Erection of New Grit Channel at Common Effluent Treatment Plant (CETP), Udyog Nagar, Nangloi

Sir,

We have been directed by Delhi Pollution Control Committee (DPCC) to contact you in connection with our requirement of one of the machines known as 'Grit Channel system' installed at CETP, Udyog Nagar.

For your kind information, we are operating and maintaining this 12 MLD Common Effluent Treatment Plant (CETP) to treat industrial waste water of Udyog Nagar & DSIDC Indl. Areas, as per directions of Hon'ble Supreme Court. In order to remove the grits from the incoming effluent, this equipment is required.

We, therefore, request you, if possible to please provide us detail list of manufacturers/vendors/fabricators or any other type of entrepreneurs for such machinery who can supply this type of equipment and also to give us technical support/advice on this issue.

Thanking you, and awaiting an early & positive response.

Yours faithfully,

  
R.K. MEHRA  
Hony. Secretary

CC to: The Member Secretary, Delhi Pollution Control Committee, ISBT Building,  
Kashmere Gate, Delhi-110006
