Activating these clusters will involve creation of strong linkages between existing networks of universities, national research institutions, along with the relevant line ministries, industry partners, state governments and international institutions of excellence. The clusters will operate on an innovative and self-sustainable business model by creating its own a legal entity and ensuring financial participation by all stakeholders. The clusters will work towards achieving three objectives: - •increase India's national & global S&T competitiveness. • become regional solution providers for local industry & government. • create shared S&T ecosystems in India. The clusters will operate in close coordination with the Science and Technology Cluster Apex Committee, and the Prime Minister's Science, Technology and Innovation Advisory Council (PM-STIAC). Roles and Responsibilities of CEO 1. Creating and managing the cluster's dedicated legal entity in</p>

		<p>the form of an SPV such as a Sec. – 8, trust, society, etc. 2. Creating synergy among participating institutions for solving complex problems of international/ national/ regional/ local priority. 3. Establishing and successfully running the STI cluster, along with a dynamic team of professionals. 4. Creating a strategy and implementation plan to develop a vibrant and collaborative ecosystem of research and innovation across all participating institutions in the cluster. 5. Building global partnerships with industry (MSME, start-up, large corporations), other academic institutions, government ministries, state authorities, philanthropic foundations, international institutions, and other stakeholders. 6. Creating a robust and real time governance structure for the cluster and its members. 7. Experimenting and piloting new ideas in field, with a problem-solving approach, towards promoting science and technology-based innovation and entrepreneurship, within academia, industry and government (central/ state/ local authority).</p>
