Applications from Indian nationals are invited for Project Appointment under the following project. Appointment shall be on contractual basis with consolidated pay, renewable yearly or upto the duration of the project, whichever is earlier.

Brief description: This project involves the design and development of an exosuit, a soft wearable robotic device, for upper limb augmentation. The work is interdisciplinary and brings together researchers from various disciplines including control, brain-machine interface, biomechanics, materials, machine learning and human physiology. Your role is to design and develop learning-based control systems for soft wearable robots.

Why you would like to join:
1. You will have an opportunity to interact with an interdisciplinary team of scientists having a background as diverse as soft robotics, machine learning, biomechanics, signal processing, and control theory.
2. This is a cutting-edge project in the country on soft neuro-robotics and control.

The post may be downgraded as per discretion of the Selection Committee if none of the candidate is found suitable for the post.
The candidates who are interested to apply for the above post should download Form No. IRD/REC-4 from the IRD Website (http://ird.iitd.ac.in/rec) of IIT Delhi and submit the duly filled form with complete information regarding educational qualifications indicating percentage of marks/division, details of work experience etc. by e-mail with advertisement No. on the subject line to Prof. Sitikantha Roy at email id: recruitment.jatc@gmail.com and cc it to sroy@am.iitd.ac.in
