CORRIGENDUM

Advertisement No.: IITD/IRD/225/2022

This refers to the advertisement released for the post of Project Scientist-II (Infrared Imaging) under the sponsored research project entitled “Artificial Intelligence based Pulse Compression Favorable Coded Excited Thermal Wave Imaging Technique for Non-destructive Testing and Evaluation of Materials and Components for Defence Application” (RP04320G) in operation under Prof. Ravibabu Mulaveesala, Centre for Sensors, Instrumentation and Cyber-Physical Systems Engineering of this Institute.

An email mentioned in the advertisement for receipt of applications may be read as irilsenseiitd@gmail.com instead of irilsenseiitd@gmail.com as mentioned earlier. Further, the last date of receipt of applications for the released post is hereby extended till 10/11/2022.

The other contents of the earlier released advertisement shall remain same.

Assistant Registrar, IRD

Distribution

1. Head of the Deptt./Centres/Units → It is requested that the corrigendum in respect of above Advt. be brought to the notice of the staff working in your Deptt./Centre/Unit

2. Notice Boards
3. Advertisement file
4. Prof. Ravibabu Mulaveesala, PI, Centre for Sensors, Instrumentation and Cyber-Physical Systems Engineering

5. Webmaster IRD → To put corrigendum at IITD website.
Applications from Indian nationals are invited for Project Appointment under the following project. Appointment shall be on contractual basis with consolidated pay, renewable yearly or up to the duration of the project, whichever is earlier. Dedicated and hardworking candidates are invited to apply for the “ONE” Project Scientist II Position under the DRDO, AMREB project entitled “Artificial Intelligence based Pulse Compression Favorable Coded Excited Thermal Wave Imaging Technique for Non-destructive Testing and Evaluation of Materials and Components for Defence Application” (IRIL), Centre for Sensors, instrumentation and cyber-physical Systems Engineering (SeNSE), Indian Institute of Technology Delhi (IITD). The candidate will be working on “Artificial Intelligence based Pulse Compression Favourable Coded Excited Thermal Wave Imaging Technique for Non-destructive Testing and Evaluation of Materials and Components for Defence Application”. The position is contractual and renewable up to the completion of the project based on the candidate’s satisfactory performance, which will be renewed for every six months.
